Effective **01/02/2025**, one or more investment options will no longer be available. If you're currently directing contributions to the affected investment option(s), your future contributions and current funds will be directed to the new investment option(s) outlined below unless you elect other available investment options. See the Investment Option Summary for more details on the current and new investment options.

Effective **01/02/2025**, one or more investment options will no longer be available for money currently in your account. If you're currently directing contributions to the affected investment options and/or according to a model, money currently in investments/models will be directed to the new investment options/model outlined below, unless you make a new investment election. See the Investment Option Summary for more details on the current and new investment options.

Details of the model(s), model terms and conditions, and applicable investment options can be viewed through your account at principal.com. A model is a portfolio of varying asset classes based on the intended investment risk for the model. Your plan's financial professional and/or plan sponsor chooses the investment options that will be included in the models.

If you're currently contributing to the retirement plan but have not made an investment election, future contributions will be directed to one of the applicable Principal LifeTime Hybrid Collective Investment Funds (CIT) based on your normal retirement date as stated in the Summary Plan Description, unless you make your own investment election. See the Investment Option Summary for more details on the current and new investment options.

Effective **01/02/2025**, the investment options, as designated by the plan sponsor and currently being used for the RetireView[®] models, are changing. If you're currently directing contributions according to a RetireView model, your money currently in your account and future contributions will be directed according to the new

model outlined below. See the Investment Option Summary for more details on the investment options that populate the model.

RetireView features:

- Automatic age adjustment — the model will automatically adjust the investment mix as you get closer to retirement, unless you elect otherwise.
- Rebalancing — your investments will automatically rebalance on a quarterly basis to keep your investment mix in line. You have the ability to adjust the rebalance frequency. Rebalancing may no longer occur if certain investment option(s) or service changes occur. See the RetireView Participant Terms and Conditions on principal.com for more details.

You can opt out of the RetireView asset allocation education service and choose from the Plan's other investment options. For additional information on the RetireView asset allocation education service visit principal.com.

If the effective date is a closed market date, retirement funds will be redirected on the next open market date.

How investments will be redirected

Closed investment option		New investment options		
Investment Manager or Sub-Advisor	Existing investment option	Redirected to	Investment Manager or Sub-Advisor	New investment options
T. Rowe Price/Brown Advisory	LargeCap Growth I Separate Account ^A		Principal Global Investors	Blue Chip Separate Account ^{A G}

Dimensional Fund Advisors	DFA US Targeted Value I Fund		American Century Inv. Mgmt.	Avantis U.S. Small Cap Value Institutional Fund ^G

More information

To review or make changes to your investment elections, log in to your account at principal.com. Or, give us a call at **800.547.7754** to speak with a retirement specialist.

Principal LifeTime Hybrid CITs may invest in various types of investments, including underlying Principal Funds, and each is managed toward a particular target (retirement) date, or the approximate date an investor starts withdrawing money. As each Principal LifeTime Hybrid CIT approaches its target date, the investment mix becomes more conservative by increasing exposure to generally more conservative investment options and reducing exposure to typically more aggressive investment options. The asset allocation for each Principal LifeTime Hybrid CITs is regularly re-adjusted within a time frame that extends 10 years beyond the target date, at which point it reaches its most conservative allocation. Principal LifeTime Hybrid CITs assume the value of an investor's account will be withdrawn gradually during retirement. Neither the principal nor the underlying assets of the Principal LifeTime Hybrid CITs are guaranteed at any time, including the target date. Investment risk remains at all times.

Important information

Carefully consider the Fund's objectives, risks, charges, and expenses. Contact your financial professional or visit principal.com for a prospectus, or summary prospectus if available, containing this and other information. Please read it carefully before investing.

Before directing retirement funds to a separate account, investors should carefully consider the investment objectives, risks, charges and expenses of the separate account as well as their individual risk tolerance, time horizon and goals.

Investing involves risk, including possible loss of principal.

For more information on this or other investment options, visit principal.com, or call 800.547.7754.

Asset allocation and diversification do not ensure a profit or protect against a loss.

Several investment companies have decided to impose redemption fees and/or transfer restrictions on certain plan and/or participant transactions. One or more of the investment options in your employer's retirement plan may be impacted. For more information, log into your account and visit us at principal.com.

Separate Accounts are available through a group annuity contract with Principal Life Insurance Company®. Insurance products and plan administrative, if applicable, services are provided by Principal Life Insurance Company®, a member of the Principal Financial Group, Des Moines, IA 50392. See the fact sheet for the full name of the Separate Account. Certain investment options may not be available in all states or U.S. commonwealths.

As allowed by their prospectuses, several mutual fund companies have decided to impose redemption fees and/or transfer restrictions on certain plan and/or participant transactions. One or more of the investment options in your employer's retirement plan may be impacted. For more information, visit us at The Principal Retirement Service Center® at principal.com.

Insurance products and plan administrative services are provided by Principal Life Insurance Company®. Principal Funds, Inc. is distributed by Principal Funds Distributor, Inc. Securities are offered through Principal Securities, Inc., member SIPC and/or independent broker/dealers. Referenced companies are members of the Principal Financial Group®, Des Moines, IA 50392. Certain investment options may not be available in all states or U.S. commonwealths.

^A Sub-advised Investment Options include Separate Accounts available through a group annuity contract with the Principal Life Insurance Company®. Insurance products and plan administrative services, if applicable, are provided by Principal Life Insurance Company a member of the Principal Financial Group, Des Moines, IA 50392. See the fact sheet for the full name of the Separate Account. Certain investment options may not be available in all states or U.S. commonwealths. Principal Life Insurance Company reserves the right to defer payments or transfers from Principal Life Separate Accounts as described in the group annuity contracts providing access to the Separate Accounts or as required by applicable law. Such deferment will be based on factors that may include situations such as: unstable or disorderly financial markets; investment conditions which do not allow for orderly investment transactions; or investment, liquidity, and other risks inherent in real estate (such as those associated with general and local economic conditions). If you elect to allocate funds to a Separate Account, you may not be able to immediately withdraw them.

^G Mapping Balances and Future Contributions

Principal Guaranteed Option is the Custodial Guaranteed Option Group Annuity Contract available through Principal Life Insurance Company, a member of the Principal Financial Group®, Des Moines, IA, 50392

Fixed-income investment options are subject to interest rate risk, and their value will decline as interest rates rise. Neither the principal of bond investment options nor their yields are guaranteed by the U.S. government.

High-yield investment options are subject to greater credit risk associated with high yield bonds.

Small-cap and mid-cap investment options are subject to more fluctuation in value and may have additional risks than other investment options with stocks of larger, more stable companies.

International and global investment options are subject to additional risk due to fluctuating exchange rates, foreign accounting and financial policies, and other economic and political environments.

Specialty investment options may experience greater volatility than funds with a broader investment strategy due to sector focus. These investment options are not intended to serve as a complete investment program by itself.

Real estate investment options are subject to some risks inherent in real estate and Real Estate Investment Trusts, such as risks associated with general and local economic conditions.

An investment in the money market fund (Fund) is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

Each index-based investment option is invested in the stocks or bonds of the index it tracks. Performance of indexes reflects the unmanaged result for the market segment the selected stocks or bonds represent. There is no assurance an index-based investment option will match the performance of the index tracked.

Equity investment options involve greater risk, including heightened volatility, than fixed-income investment options. Fixed-income investment options are subject to interest rate risk, and their value will decline as interest rates rise.

Asset allocation does not guarantee a profit or protect against a loss. Investing in real estate, small-cap, international, and high-yield investment options involves additional risk. Additionally there is no guarantee an asset allocation investment option will provide adequate income at or through retirement.

Fixed-income and asset allocation investment options that invest in mortgage securities are subject to increased risk due to real estate exposure.

For the Principal LifeTime Hybrid Collective Investment Funds (CITS), Total Investment Expense Net equals the sum of these expenses: (a) the amount of money, expressed as a percentage, deducted for the cost of managing the collective investment trust, and where applicable, fees for plan administrative services and compensation to your Financial Professional based on the amount of business they have with us including such factors as total deposits and assets, plus (b) if the collective investment trust invests in an underlying mutual fund, separate account, or collective investment trust, the total investment operating expenses of the underlying investment option, as listed in the most recent prospectus if applicable.

The Principal LifeTime Hybrid Collective Investment Funds (CITs) are collective investment trusts maintained by Principal Global Investors Trust Company, (the Trust Company). The Trust Company has retained Principal Global Investors, LLC (the Adviser), to serve as investment adviser with respect to the CITs, subject to the Trust Company's supervision and review. The Adviser is an indirect wholly owned subsidiary of Principal Financial Group, Inc. and is under common control with the Trust Company. The Adviser also manages portfolios which may be included as underlying investments in the CITs. The Adviser receives management fees from these portfolios. The Adviser or other affiliates of the Trust Company may provide services to the CITs and may receive fees for such services. The CITs are available only to certain qualified retirement plans and governmental 457(b) plans.

The CITs are available only to certain qualified retirement plans and governmental 457(b) plans. The Trust Company is regulated by the State of Oregon. **Units of the CITs are not deposits or obligations of, guaranteed by, or insured by the Trust Company or any affiliate, and are not insured by the FDIC or any other federal or state government agency. The value of the CITs will fluctuate so that when redeemed, units may be worth more or less than the original cost.** The declaration of trust, participation agreement, and disclosure documents contain important information about investment objectives, risks, fees and expenses associated with investment in the CITs and should be read carefully before investing. The declaration of trust is available at [principal.com](https://www.principal.com). A copy of the participation agreement can be obtained from your plan administrator.

RetireView® is an educational service designed to help retirement plan participants determine an appropriate investment mix for their retirement account. Principal retained Morningstar Investment Management LLC, a registered investment adviser and subsidiary of Morningstar, Inc., to create asset class-level model portfolios ("Models") for RetireView. In no way should Morningstar Investment Management's creation of the Models be viewed as advice or establishing any kind of advisory relationship with Morningstar Investment Management. Morningstar Investment Management does not endorse and/or recommend any specific financial product that may be used in conjunction with the Models. Morningstar Investment Management LLC is not an affiliate of any company of the Principal Financial Group.

Models are created by Morningstar Investment Management LLC. Morningstar Investment Management begins by analyzing asset classes and constructs long-term expected returns, standard deviations, and correlation coefficients. These form the inputs for the mean-variance optimization, a statistical technique. Because forecasting is a critical and pivotal step in the asset allocation process, Morningstar Investment Management develops proprietary capital market forecasts for each asset class using a combination of historical data, current market information and additional analysis. Each forecast becomes an input in portfolio creation.

The Models are intended to be used as an additional information source for retirement plan participants making investment allocation decisions. Pursuant to the Department of Labor's Definition of Investment Education, such models (taken alone or in conjunction with this document) do not constitute investment advice for purposes of the Employee Retirement Income Security Act (ERISA), and there is no agreement or understanding between Morningstar Investment Management and us or any plan or plan fiduciary, or any participant who uses this service, under which the latter receives information, recommendations or advice concerning investments that are to be used for any investment decisions relating to the plan. Accordingly, neither we nor Morningstar Investment Management are a fiduciary with respect to your plan sponsor's plan for purposes of this service, including the features of rebalancing and aging. Following an asset allocation Model does not ensure a profit or protect against a loss. Performance of the individual Models may fluctuate and will be influenced by many factors. In applying particular asset allocation Models to their individual situations, participants or beneficiaries should consider their other assets, income and investments (e.g., equity in a home, Social Security benefits, IRA investments, savings accounts and interests in other qualified and nonqualified plans) in addition to their interests in the plan.
